+ Deccox

# Mapleview Advanced Calf

## + Deccox

Mapleview Advanced Calf + Deccox is a highly digestible skim milk based milk replacer with functional proteins  for increased performance. It was formulated using the most recent scientific information and designed for optimal growth of young dairy calves. It is formulated using a blend of ingredients, for quick dispersion resulting in a milk replacer with a highly desirable texture and aroma to stimulate the young calf's appetite. Optimum digestibility for the young calf is maintained whether the milk replacer is used in a computerized or hand mixing system.

It is medicated with Deccox for Coccidiosis control in calves. Although no veterinary script is required please read the label for directions.

- **Quick and Easy to Prepare**
- **Designed for Optimal Growth**
- **For Use In Computer Feeders**
- **Highest Quality Ingredients**
- **Features Functional Proteins**

FUNCTIONAL PROTEIN SERIES

Mapleview Functional Protein Series products contain a high quality protein product composed of albumin and globulin proteins. Research completed at the Mapleview Agri Ltd. Research Facility has shown that high quality functional protein products can reduce severity of diarrhea, in addition to reducing calf morbidity and mortality. Functional proteins have similar characteristics to colostrum, and stimulate the calf's immune system by providing immunoglobulins.

### GUARANTEED ANALYSIS

Crude Protein	(min)	26.0%
Milk Protein	(min)	22.0%
Crude Fat	(min)	17.0%
