Mapleview Rapid Start
+Deccox

Optimal for Winter Feeding

Mapleview Express Start +Deccox

Mapleview Express Start + Deccox is formulated with a higher fat level which increases the energy available to the calf, making it a great choice for winter feeding. It is a highly digestible skim milked based milk replacer formulated, using a blend of ingredients, for quick dispersion resulting in a milk replacer with a highly desirable texture and aroma to stimulate the young calf's appetite. Optimum digestibility for the young calf is maintained whether the milk replacer is used in a computerized or hand mixing system.

Medicated with Deccox for Coccidiosis control in calves. Although no veterinary script is required please read the label for directions.

- **Quick and Easy to Prepare**
- **Designed for Optimal Growth**
- **For Use In Computer Feeders**
- **Highest Quality Ingredients**
- **Increased Energy**
